

Defense Against the Dark (DEW and LRAD) Arts:

Effect of Water and OPC on Directed Energy Weapons

— In memory of Victor Li, Matt Chambers, —
and all the other victims of DEWs

Dedicated to all beings on all sides
who are contributing to Soul's (inevitable)
triumph over oppression

“There is a hidden
war at play.”

- Bentinho Massaro

“This **war** is a **war** of
frequencies.”

- Kerry Cassidy

“The findings reported here lend further support
to a decade of **research** which suggests that over
95% of worldwide **crop formations** involve
organized **ion plasma vortices**...”

- Dr. William Levensgood & Nancy Talbott

“...by impressing upon it **current waves** of certain
lengths, definitely related to its diameter, the
globe is thrown into **resonant vibration** like a **wire**,
forming **stationary waves**.”

- Nikola Tesla

And More...

Basically, we are in a war of frequencies.
Used differently, they have different effects.
The effects can be massive.

I first became aware of DEWs in April 2020:

- 1) “Eer er eer” sound
- 2) Radiation sickness
- 3) NDE
- 4) Negativity
- 5) Tension
- 6) Sleepiness

But I had encountered them long ago:

- 4) Death of Matt Chambers
- 3) Death of Victor Li
- 2) Near-death of me
- 1) Parents' strife

Originally developed for the military, sound cannons

The American military have presented the world with a new weapon, informally named the heat ray or microwave cannon.

- (1) COVID-19 Bioweapon
- (2) 5G Roll-outs & Existing 4G
- (3) Annual Flu Vaccines
- (4) Chemtrail Aerosols

Each of these four bioweapon systems is being surreptitiously used to rapidly and synergistically administer a [ally Knows](#) global VMAT2 vaccination regime, among other other malevolent purposes.

My right-hand assistant, a member of Congress who was working very closely with us, and myself, all got a deadly type of cancer in the same month - different kinds. I don't talk about this publicly much because people say, "Come on!" But it absolutely can be done, it WAS done, and everyone DIED but me. I was devastated, and it took me 18 months to recover.

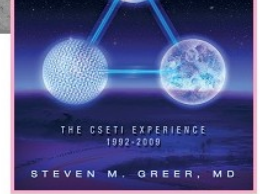

Geer, Adamiak of CSETI Both Struck with Cancer
July, 1997

<http://www.anomalies.net/archive/cni-news/CNI.0724.html>

Both myself and CSETI research director Shari Adamiak have been diagnosed with metastatic cancer. Both have appeared, rather enigmatically, at the same time, a fact which seems like a rather strange coincidence. I have been diagnosed with metastatic malignant melanoma, and another [second] lesion was removed yesterday [July 2] and confirmed to be malignant melanoma. The primary cancer has never been found. However, I am otherwise doing well and hope no further lesions will be found. Shari has been diagnosed with metastatic breast cancer of the right breast, with metastasis to the right axilla.

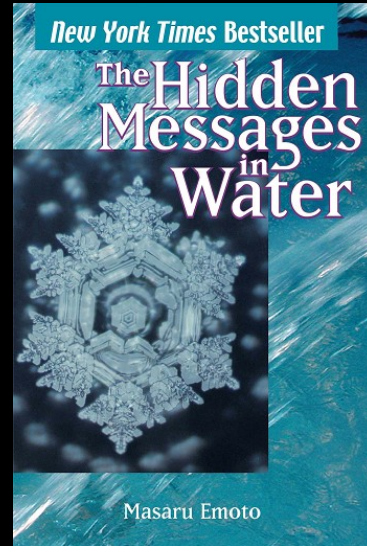

Through this experience both my travel partner and I are now extremely EMF sensitive and upon returning to Canada, became incapacitated once in 5G radiation. I became quickly aware that I am now (thanks to **nanobot brain poisoning**) a walking human Geiger counter. The nanobots in my brain allow me to sense with **inhuman** accuracy every single deviation in microwave frequency and I feel every 5G tower, meter, street light, receiver long before I see it.

DEWs are being used to attack whistleblowers/ protestors/ researchers, and to spread diseases such as viruses/cancer/gene suppression.

Methods:

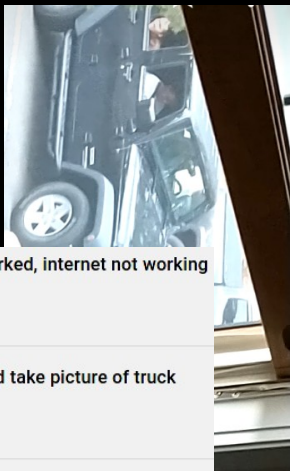

- 1) Understand the problems and the tools at hand.
- 2) Use tools, devise solutions.
- 3) Test.
- 4) Repeat.

LIMITATION 1: can only target a (1 ft wide) point, only short distances

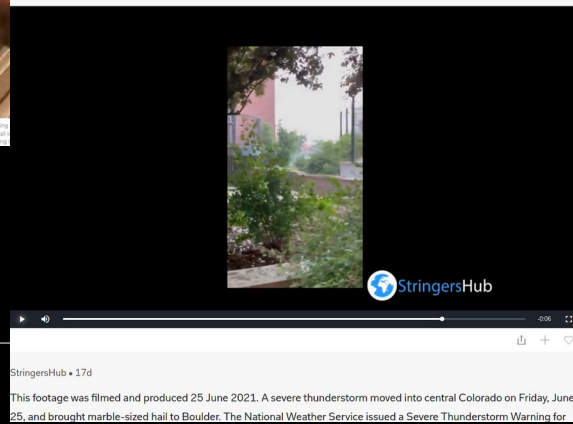

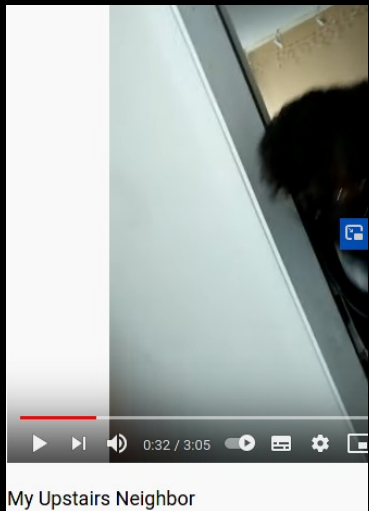

LIMITATION 2: requires lots of water for cooling

DEW

- Microwave cannon
- Used to down planes, spacecraft, terrorists and...civilians
- “Scalar Electromagnetics is Electrogravitation...emerging from the very spacetime (vacuum)” - Tom Bearden

- “directed-energy weapons use lasers or other forms of energy, including microwaves. While the U.S. military has employed such devices to take down aircraft, there’s little evidence that they’ve been used on individuals — except the accounts of those who say the weapons have been used against them, targeting brain waves to manipulate mood or induce serious health issues, such as a heart attack or stroke. “

Solution: Water

Not for water memory, but for blocking microwaves!

LRAD

- Sound cannon
- “Voice of God”
- Used against terrorists, and...civilians and dolphins

LIMITATION 1:

Not as intense

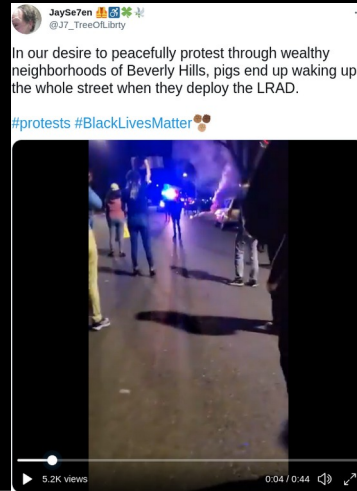

LIMITATION 2:

Less effective over time

3,000 Dolphins Found Dead on the Coast of Peru

Solution: Optical Phase Conjugation mirror

- Subtle energy reflects light back to source
 - “what is consciousness”
- Cancels LRAD
 - All = 2 = 1

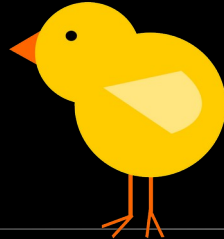

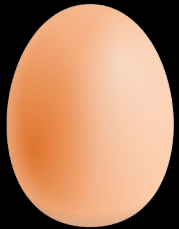

* Water is NOT effective against LRAD.

Call for research

Why aren't mainstream scientists researching this stuff?

Why are the people researching this not in the mainstream?

- So far: Experimental
- Other properties of OPC, water memory?
- How to study these?

Thank You!
